## Got Images?

**The Cell: An Image Library™**, a new research-, reference-, and education-focused cell image and video repository, wants your images. Why? The Library aims to further discovery and education by cell biologists, computational biologists, geneticists, pathologists, cancer biologists, and others.

*Funded by NIGMS Grand Opportunities grant RC2GM092708 to the American Society for Cell Biology (ASCB)*

## What Is The Cell?

- A growing, repository of microscopy data that includes vetted and annotated images and video of all cell types, structures, functions, and normal and disease states
- A collection of image data from diverse organisms and microscopy modalities
- A searchable, analyzable repository
- An open access site to archive your data

## How to Serve the Scientific Community and Public?

- Submit your videos, images, and animations.
- Encourage and develop new analytic tools.
- Ask others to share their videos, images, etc.

## What Are The Cell's Long-Range Goals?

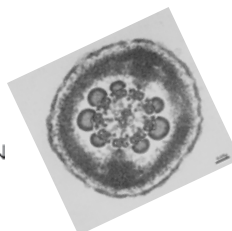

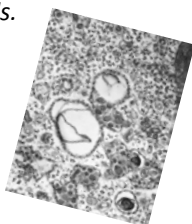

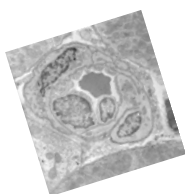

- Promote scientific discovery.
- Advance training and education.
- Further understanding.
- Contribute to improved human health.

The ASCB welcomes feedback and encourages you to visit [www.cellimagelibrary.org](http://www.cellimagelibrary.org) for more information. Or email David Orloff ([dorloff@ascb.org](mailto:dorloff@ascb.org)), Manager, Image Library. Contributing images is easy and acknowledged.

*The American Society for Cell Biology is the community for biologists interested in the cell and related discovery, education, policy, and professional development. Join us. Visit [www.ascb.org](http://www.ascb.org).*

*\*See back for contest details.*

Submit the most images published in the Library and win free registration to the 2011 ASCB Annual Meeting and a year's free membership!\*

*The science of life, the life of science™*

## ASCB's The Cell Image Contest Rules

1. You must own the copyright or have the rights to submit the images.
2. You agree that regardless of the license option you choose, you give The Cell permission to publish any images you submit in The Cell.
3. You must provide sufficient experimental information to allow for complete annotation.
4. The prize will be awarded to the three people who submit the most images in the Library by January 31, 2011, that are selected for publication.
5. Images must be submitted to The Cell using the freely available DataRollup software program at <http://www.cellimagelibrary.org/pages/contribute>.
6. Images must be submitted to The Cell by January 31, 2011, but the winners will be named on March 31, 2011, to allow for selection and annotation by annotators.
7. The winners must have at least 25 images published in The Cell.
8. The winners will be featured in the ASCB Newsletter, on the ASCB homepage, and on The Cell's homepage. The winners also receive free ASCB membership for one year. Current members will have their membership extended. The winners will also receive free registration for the 2011 ASCB Annual Meeting in Denver, Colorado.

If you have any questions, please contact David Orloff, [dorloff@ascb.org](mailto:dorloff@ascb.org), Manager, Image Library.
